

Senior System Administrator for Minerva Imaging

Join Minerva Imaging as a Senior System Administrator and be part of pioneering breakthroughs in translational cancer research and drug development

Are you passionate about system administration, robust infrastructure design, and avid to make an impact in a cutting-edge industry?

Minerva Imaging is seeking a skilled Senior System Administrator with emphasis on infrastructure and M365 to join our innovative Digital Solutions and Technology department.

If you're eager to join an innovative company that's been recognized with six Gazelle awards for our exceptional growth, we want to hear from you!

About the Role:

In this role you will play a pivotal role in maintaining and evolving our hybrid infrastructure, supporting both on-premises and cloud environments. You'll collaborate closely with our development and operations teams, ensuring seamless integration and continuous improvement of our systems and applications.

Key Responsibilities:

- Manage and optimize our hybrid infrastructure, including on-premises Windows Server 2022 and Linux (primarily Ubuntu), as well as cloud-based Microsoft 365 services.
- Oversee virtual environments (VMWare 8.03, Kubernetes with Rancher and Longhorn) and lead the planned migration away from VMWare.
- Manage network infrastructure based on Fortinet technologies (firewalls, core switches, access points, VPN) and secure our entire environment of both network, phones, and server.
- Ensure robust backup solutions using Veeam to local SAN and cloud, and maintain NetApp SANs for file shares and backup volumes.
- Administer and maintain Microsoft Domain Controllers (hybrid setup with Entra synchronization), ensuring security and reliability.
- Mentor and guide other system administrators, fostering a culture of continuous learning and improvement.
- Create and maintain comprehensive documentation on the infrastructure and related systems.

Qualifications:

- Bachelor's or Master's degree in Computer Science, Engineering, or a related field.
- Proven experience as a System Administrator, with a focus on system architecture and design in hybrid environments.
- Strong proficiency with Windows Server, Windows 11, Linux (Ubuntu), and Microsoft 365 cloud services including Intune and security policies.
- Experience with VMWare, Kubernetes, ProxMox and SAN technologies (NetApp).
- Excellent problem-solving skills and the ability to work independently and as part of a team.
- Strong communication skills and the ability to articulate complex technical concepts to non-technical stakeholders.

Preferred Qualifications, knowledge on:

- Network administration, preferably with Fortinet products.
- Backup solutions (Veeam).
- UPS solutions (Eaton).
- Other M365 services like Exchange, SharePoint, Teams etc.
- Life-science

On-Site Requirement:

This position is on-site, and the successful candidate must be able to participate in on-site interviews and work at the offices in our facility in Ølstykke.

Minerva offers:

We believe in creating an agile working environment, so we have flexible working options including the option of working from home. We care about our employees' well-being and offer health insurance and a quality conscious lunch scheme and monthly social activities.

We are an informal organization with a strong focus on open and honest communication. We value humour and a natural care for one another.

Application:

Please submit your application to us no later than 30.01.2026. The application must include a motivated cover letter and a CV addressing the listed qualifications. Applications will be evaluated continuously.

If you have questions regarding the position, please contact Jacob Breiting Sønnichsen at jbs@minervaimaging.com

About Minerva Imaging:

Minerva Imaging is a scientifically driven and integrated CRO and CDMO specialized in targeted radionuclide therapies. We focus on the use of advanced animal models within oncology, cardiovascular diseases, and in vivo molecular imaging for translational research and drug development.

We engage with our sponsors to understand their scientific questions and discuss how our methods and capabilities can provide answers. Our facility located in Ølstykke, Denmark offers best-in-industry fully integrated radiopharmaceutical research, drug development, and manufacturing services.

As part of Minerva Imaging's recruitment policy we expect all candidates to provide their personal criminal record.

Minerva Imaging is an equal opportunity employer, and we encourage candidates of all backgrounds and experiences to apply.
